Call for Graduate Presentations

Graduate students in Philosophy are cordially invited to attend the School, and to submit an extended abstract for contributed talks. We invite submissions of (i) a short abstract of 100 words, and (ii) an extended abstract of 1000 words (pdf file), to be submitted through our automatic system before 31st of July 2010.

Decisions will be made by 14th of August 2010. Please specify whether you want to present a paper in the Tilburg week or the Lausanne week (PhD-students are explicitly welcome to participate in both weeks). As regards the Tilburg week, submissions related to the theme of the Descartes Lectures will be given preference, but presentations on other topics are also welcome. Students who are selected to present a talk can receive financial support. The two best presentations receive a special award. For details, see the website.
